**Project Delivery System**  
**Construction**  
**Size**

Cold Storage  
Design/Build  
Precast concrete and insulated metal panel  
9.5 Million Cubic Feet

**Description**

This facility, built for a previous owner, offers state of the art cold storage and processing of meat and poultry. The building has refrigerated docks, blast storage, and cold storage areas with temperatures ranging from -20 to 45 degrees. Brown Construction served as the project manager for this fast track project.
