Science and Technology Educational Building  
 General Contractor  
 78,000 square feet  
 Western Iowa Tech  
 Dr. Bob Dunker, President  
 712-277-6400

**Description**

The new facility offers a first-class environment, using state-of-the-art teaching technologies. The building employs several energy saving techniques, including lighting control via the energy management system, day-light harvesting and occupancy sensors. The mechanical systems also utilizes high efficiency boilers, chillers and air-to-air heat exchangers.
