

## Dairy Queen

Sioux City, IA

**Project Type**  
**Project Delivery System**  
**Size**  
**Client Reference**

Restaurant  
 General Contractor  
 Wood and Masonry  
 3,500 square feet

### Description

Brown Construction's ability to self-perform much of the work, helped the local Dairy Queen franchisee to build their new building quickly, economically, and with a high level of quality. Custom metal wall panels and Spectra Glaze tiles were used. The project was completed in less than 100 days.
